

When you help others your world changes.
We make it simple.

BRING KIDS CONNECT TO YOUR SCHOOL

WHO WE ARE

World Connect engages young Americans in schools to enhance global education, cross-cultural communication and understanding, and to inspire students everywhere to become directly involved in philanthropy.

WHAT'RE WE LOOKING FOR

Schools to participate in our World Connect program

Teachers who want to engage their students in global education

Students who want to become leaders in global citizenship

WHAT STUDENTS GAIN...

The knowledge and training to evaluate and critique the design of international development projects

A space to discuss the challenges women and children face in the developing world and the tools to do something about a particular issue;

The opportunity to connect directly with women, children and community leaders in some of the world's most marginalized communities.

WHAT WE PROVIDE

Each school will have the regular support of World Connect staff who work closely with teachers and students to organize meetings, design educational activities, facilitate connections with World Connect projects abroad, and plan fundraising activities.
