LETTER OF SUPPORT: UNIQUE FOUNDATION (THE GAMBIA)

We write to support Unique Foundation The Gambia for initiating the project "Education & Resource Centre for the underprivileged Children in Dippa Kunda, Western, Gambia". We believe that this project will definitely create some remarkable changes and help provide underprivileged children access text books for better understanding of lessons taught in their schools, with access to computer and internet facilities, mentors and other educational guidance.

Unique Foundation The Gambia has already done some great projects for improving the literacy rate and awareness about education among the children and in the Kanifing Municipal Area Council. We understand that due to limited academic resources underprivileged children most times perform poorly in their academics exams. We believe this project will help improve the learning achievements of children especially those living in the area and further reduced expenditure burden on poor households.

We have full-confidence in this important project. We highly recommend this initiative by Unique Foundation and the project is also aligned to the ideas that are particularly relevant to the mandate of our Council (K.M.C.) which is to reduce poverty and improve the living standard of its inhabitants.

We offer our support to this project as a local government authority in charge of the Municipality.

Sincerely,

Serrekunda, The Gambia| Tel: (+220) 7321 827 / (+220) 2343 221 / (+220) 3027 761
