RECOMMENDATION FOR NYAKASANGA DEVELOPMENT COMMUNITY FOUNDATION (NYAKU)

I am writing to recommend the above community based organization for your kind support towards their project. The top management of this organization has approached me for a character recommendation letter in order for you to support them with a grant.

ENVenture provided Nyakasanga Development Community Foundation (NYAKU) a loan facility of US \$2000. Before this loan was approved, NYAKU was appraised based a stringent process that included field visits and several other appraisal techniques to verify their credibility and capacity to professionally manage the loans funds

During my field visits, I was able to visit the project that we provided the loan funds for and I was impressed with their progress. I was further able to establish the following;

-this CBO has been in existence for more than 5 years operating in Nyakasanga village, Kasese District, Uganda.

-The group members are lying below the poverty line and mostly affected by absolute poverty the limits them from access major development interventions like Energy, agriculture, crop and animal husbandry, water and sanitation and health.

-The group is active and consists of 104 members with a majority (over 80 percent) being women.

-The group is known by leadership of the community and is registered with there are a local authority.

Based on my findings and interaction with this CBO I strongly recommend them for your kind consideration. Thank you very much.

Sincerely,

Julius Mujuni

Country Coordinator.
