TO WHOM IT MAY CONCERN

Dear Sir

**LETTER IN SUPPORT OF AN APPLICATION FOR FUNDS TO CONSTRUCT A TWO
STOREY CLASSROOM BLOCK AT GOD'S LOVE HOUSE, KIBWA, KAMPALA**

I, first heard of and visited God's Love House (GLH) at Kibwa, north west of Kampala in 2014. My mission on behalf of an Australian NGO was to investigate the present and future building needs of the orphanage and school. My November 14 report contained a cost estimate for renovation works at GLH and labour requirements to undertake that work. The Australian NGO after considering the report felt that it could not immediately commit to this renovation work.

In 2015 my local friends agreed to support a Tasmanian scheme that three of us could return in November 2015 and undertake the renovation works. During our visit GLH was able to purchase some more land and this land now provides it with the opportunity to expand and erect a new 2-storey classroom block on it. The present financial situation is that there is hardly sufficient donor income to cover recurrent costs and therefore GLH has to look to funding agencies for this capital investment.

My role as GLH honorary project manager has given me the opportunity to meet and get to know the staff and the co-founder of GLH over these past two years. I have a very high regard for all of them. I strongly support their application for funding.

I am willing to assist you via an Internet connection in your review of this funding request for any questions or additional information.

Yours sincerely

David Meadows MA MPM PMP

Project Manager
