International Christian Gospel Ministries (ICGM)

Annual Report –2016–2017

Contents

1. Local and International Missions - UK and Uganda.	3
2. ICGM Vocational Skills Training Programme in Gulu, Northern Uganda	5
3. Administration and Finance	7
4. Donations	7
5. Appendices:	8

Appendix 1. Gulu: Councilors, Pastors Conference/ Workshop notes.

Appendix 2. DIT Results (Directorate of Industrial Training).

2. Local and International Missions.

Figure 1: UK – Street Evangelism – Reaching nations, tribes and cultures on streets of Oxford.

International Christian Gospel Ministries (ICGM) conducted evangelistic campaigns in Uganda and UK during this period (Figure 1 and 2), in Kampala city, Gulu, Kisoro districts, and Oxford city. Many people were saved, healed and delivered. Lives of needy people were positively changed.

In Kampala, our mission focused on conducting an empowering, encouraging pastors and churches. ICGM conducted evangelistic campaigns in local churches, a garage in Kampala, preached on radio stations (Gulu). People were saved, delivered and healed of diver sicknesses and conditions. In Kinawataka church (a suburban in Kampala); a woman who was oppressed of the devil was set free. She voluntarily brought all her witchcraft items to be burnt were burnt (figure 4). ICGM conducted a meeting in one of the largest garages in Kampala which belonged to a Muslim. Many employees were saved and healed of divers' diseases and illnesses especially chest pains (figure 2).

Figure 2. Overseas missions: Garage evangelism, prayer and teaching the Word of God.

In Gulu, ICGM conducted a conference in Kakanyeru Hotel (2016) (appendix1). District leaders turned up, some of them had committed their lives to Jesus during the previous mission. Counselors were baptized in water (Figure 4).

Figure 4. Burning witchcraft.

DIT Certificates issued for Motor mechanic students.

In 2017 ICGM conducted a conference in Gulu in Sunset hotel. The owner of the hotel accepted Christ as his personal savior and Lord. A woman who was a trainer of witches was delivered and destroyed all the Devil's shrines in her home. A local chief led us to his home to destroy witchcraft items which were in his compound (Figure 3). In one of the churches a woman was instantly healed of partial deafness (figure 5).

In Kisoro ICGM conducted a crusade in Nyagatembe village, 5 miles from Kisoro town on Kisoro – Kabale road, in partnership with two local churches. Jesus healed a woman with a breathing problem instantly; an ancestral shrine in her house was destroyed. Many accepted the Lord Jesus as Lord of their lives. The village is in utter social, economic and spiritual depravity with many unemployed youths and very very few job opportunities. ICGM plans to build a church and a vocational College there for job creation and employment. A piece of land has been donated to build classrooms and a church. ICGM secured basic tools to start practical skills training in the village. Training is always conducted for every willing person in need regardless of religion, tribe, race, gender, disability etc. In Kisoro Prisons meetings, more than 20 prisoners gave their lives to Jesus and healed of different diseases and illnesses. We had secure permission to preach in all prisons in Kigezi region including Kisoro, but we couldn't, except Kisoro prisons, because of the death of the Evangelist Jennifer Kwritegetse's mother on 08 May 2017, at 93 years old (figure 6). ICGM expresses deep and sincere gratitude to our late Mum. Her contribution to our lives in all areas – care, growth, protection and tremendous generosity are eternal and beyond measure. It was a privilege to be under her godly parenthood and authority. Evangelist Mama Lucy Achulu Oryem, successfully hosted an underground church in Gulu during the 1970s, when Idi Amin's regime banned and persecuted churches. She is so well known for boldness that she took such a risk. God honoured her faith in Him and kept her safe during the tribulation. Her husband Mr Simayo Oryem (a lawyer, former Administrative Secretary of the then Acholi district, and a Chief of the Lamutu Clan) was brutally murdered by the regime of Idi Amin. His body is still missing. Mama Lucy went through all this tragedy. She brought to our Lord Jesus orphans and widow, shepherded and fed them, welcomed and feed people from all tribes and nations. We miss her dearly, till we meet again, God the Almighty is with you.

Figure 5. A woman with partial deafness Instantly healed in a service, in Gulu.

2. ICGM Vocational Skills Training Programme in Gulu, Northern Uganda.

Figure 7. ICGM College training - *Youth Skills' Empowerment for Job Creation and sustainable living.*

Figure 8. Pioneers of ICGM College of Design and Technology.

ICGM College of design and Technology moved back to Gulu town. Vocational training (figures 7 and 8) is temporarily on hold until ICGM acquires training premises either of her own or otherwise.

All ICGM equipment is currently kept in Gulu town (figure 9) in a store that belongs to the President's office/Resident District Commission (RDC) under a 5-years Memorandum of Understanding (MOU) with the RDC office from 2016. The store and office are safe. ICGM had to install new metallic doors, windows and painting. The middle hall of the building is used by the ruling party. The area is secure, located just near the army detach and behind 5-star hotel. ICGM cannot be sure that the MOU will be renewed after five years. In order to resume vocational training (figures 7 and 8), ICGM will have to work hard to build own

premises – a storeroom and some classrooms within three years. ICGM needs now £26,000, to build these initial facilities. This is a critical point for sustainable vocational College development and programme continuity, by ICGM.

Before renovation

After some renovation of the office and the storeroom

Figure 9. Store where ICGM Equipment is kept – Gulu Town.

ICGM has acquired a piece of land in Gulu, donated by Mrs. Jennifer Kwitegetse to the Ministry. ICGM plans to build at least a storeroom for equipment and basic classrooms, in order to resume training and maintain continuity. Thus ICGM started excavation for storerooms in 2017 (figure 10), as part of a 5 -10 years building plan (figure 11). Sand, 1000 bricks, iron bars for reinforcement are on site. Funds permitting ICGM will start building the foundation from February 2019.

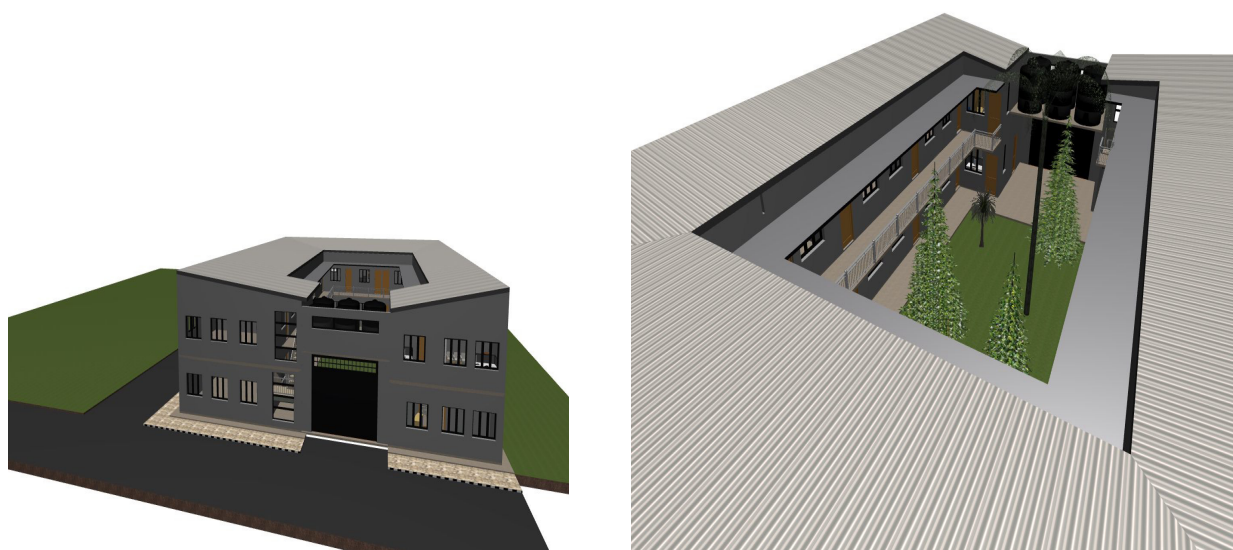

Figure 11. 5-years Vocational Training College Development Plan - Gulu.

3. Administration and Finance.

International Christian Gospel Ministries (ICGM) renewed the NGO status for another 5 years' operation in Uganda. This is a normal procedure but NGOs in Uganda are working hard to convince the government of Uganda change the policy and give permanency NGO registration. Directorate of Industrial Training (DIT) released nationally recognised Certificates for some of our students who sat for practical assessment (appendix 2).

ICGM is maintained and supported financially by donations from individuals, small one-off grants from other charities in the UK and gift aid. The organization carries out the present activities through volunteers. Currently, ICGM has no paid staff both in the UK and Uganda. ICGM services are delivered by volunteers.

ICGM's long-term policy and plan is to be financially self-sufficient. For now ICGM needs £26,000.00 in the short and medium term in order to realize the self-sufficient goal. We need more partners worldwide. Fund raising is an ongoing activity that seeks for funds to enable ICGM effort to fulfill its vision and objectives.

4. Donations.

Donations can be sent to ICGM either directly by post to ICGM address above or by transfer to the ICGM account: A/C No. **10651842** Sort Code **20-06-75** Barclays Bank, Bicester branch
