To Whom It May Concern:

RECOMMENDATION LETTER – FOREFRONT UGANDA

We are writing this letter to highly recommend partnerships with Forefront Uganda. Throughout our interaction with this organization, we have been impressed with their unwavering commitment to their community and the quality of their programs, particularly, their innovative and unique ways of empowering women with disabilities and their families.

Last year, we had this opportunity to visit their organisation in Gulu Uganda during an exchange and learning visit. During that time we witnessed how their work has impacted women with disabilities and their families through their economic empowerment training programme. We also met five of their beneficiaries who are now trainers of trainers in small-scale businesses in their communities. We also learnt with a lot of excitement on their new strategic direction that premise their interventions on economic and livelihood sustainability, and disability rights.

This organization has been a joy to work with and is having a positive impact in their community. Their staff and board is organized, passionate, and dedicated to helping others.

Please reach out should you have any additional questions regarding this organization.

Yours Faithfully

For: Lakeshore Hope and Relief Zambia
