Dear Sir,

RE: Mushroom Spawn and Production

The management of Kasese Municipality Environment management has accepted Act women foundation Uganda located in Umoja Cell, Nyakasnga, Nyamwamba, Kasese Municipality, in Kasese District, to have their work assist community in economic empowerment in small scale business of communities by engagement by empowerment of youth and women. The objectives of project are recommended for increasing wealth in the community Around slum areas. The project shall aid youths in kasese areas to acces skills in mushrooms cultivation and marketing best practices in Kasese that can be replicated in kasese and around the world. It good that project accept both local and world volunteer to shall commitments for cultural sites management.

The project has been inspected by Series of Municipal Environment Inspection teams recommending the project for mushrooms management post conflicts for possible opportunity.

Kasese has been at risk due to poverty and unemployment affected by youths and we need to use young persons to access skills.

Thank you,

Kairi James
