Nananom,

PERMISSION TO ORGANIZE A HEALTH SCREENING

My humble greetings, on behave of the CEO, Executives, and the entire members of the Sir Richie Foundation, I humbly write to request for your permission to organize a Health Screening for the market women in your community (Jachie Market Center).

This is in keeping with the foundation requirement and mission to support the marginalized and the vulnerable in our society. This help prevents any contagious disease and would enhance the health of the market women. This has become necessary since they are the source of all the food we eat.

We hope this will meet your kind consideration to make this a success.

Thank you.

Yours faithfully,

.....
Samuel Tufuor
(Secretary)
