The World Connect Team;

Dear Sir,

Re: Recommendation Letter of Integrated Development for Marginalized Community (IDMC)

Thanks for your request for reference about Integrated Development for Marginalized Community (IDMC) seeking a grant from World Connect. You have asked our opinion about IDMC pragmatic and long lasting impact on the activities of Rural Kasese Uganda farmers.

RUFU-Uganda have worked in partnership with IDMC for more than 5 years now, it's working with rural communities of Kasese in capacity building and skilling them in environment, health and farming activities like;

- Bee keeping
- Organic farming-Vegetables, ecological development, Red Chili pepper cultivation etc
- Poultry farming
- Environmental conservation activities.
- Health and nutrition

IDMC has a professional team that is heading and handling its activities around Kasese District.

It's a registered and licensed organization with a national non-governmental organization board of Uganda.

Our opinion is that IDMC has the experience and ability to communicate solution to the problem addressed to you and therefore we recommend them for your assistance.

Yours sincerely
