**TO WHOM IT MAY CONCERN**

Dear Sir/Madam,

**RE: RECOMMENDATION FOR MUSHOTA COMMUNITY CARE COALITION**

It gives me great pleasure to recommend Mushota Community Care Coalition for your support. Being a traditional institution in Kawambwa District, I know this community-based group since formation year in 2005.

Mushota Community Care Coalition is a truly outstanding community based organization who has accumulated a long list of achievements. Among these includes: Conducting home visits to 250 vulnerable households monitor, assess and address the wellbeing of 1096 beneficiaries; Protecting a shallow well near their office which has benefited over 71 households nearby, together with local Roman Catholic Church members and their visiting fellow members from centers. Other small projects, I know of, are Chinombwe and Kantabili villages water protection, initiated by the same group. These villages had their two shallow wells protected and conditioned provide adequate water. In addition to that, villagers acquired skills which they use in maintaining their respective water points. This organization work conscientiously, always seeking out challenges that community face, and has shown amazing capacity for fulfilling its responsibilities in a great variety of activities. It is organized, disciplined in its work, has highly developed skills, and always thorough in what it does.

In sum, I highly recommend this organization for your support. I truly believe its proposed course of work builds on many of its strengths and will benefit people of Chitimba and the surrounding homesteads. The Coalition's cooperative spirit and disciplined approach to community development makes it particularly suited to take up this challenge of unsafe and inadequate water supply and, will use greatly the advantage of your support to address it.

Truly,

*Chama*
