Dear Sir/Madam,

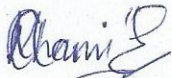

Subject: Recommendation Letter

I wish to draw your attention to the above subject.

The Mushota Community Care Coalition is one of the indigenous organizations we were working with from 2005 until the phasing out of the program in September 2015. This organization is located in Mushota, a biggest zone of the World Vision- Chama ADP catchment in Kawambwa District. As a beneficiary organization, had its capacity built in various skills such as community mobilization, women empowerment, OVC management, crop production, food processing, gender, project management and grant compliance just to name but a few. This organization has both the capacity and experience gained working with us to implement any community project.

As partners, World Vision- Chama ADP Program Management Committee has not hesitated to recommend this organization for support as one way of sustaining many gains of the last 15 years of community service and contribution to child wellbeing outcomes.

Yours faithfully,

Chani Christopher

Program Management Committee Chairperson.
