21st February 2020.

TO WHOM IT MAY CONCERN:

Dear Sir/Madam,

RE: RECOMMENDATION FOR MUSHOTA COMMUNITY CARE COALITION

We highly recommend Mushota Community Care Coalition as an ideal organization for grant support for community water supply project in Chitimbwa area.

Being a local government structure in Kawambwa District, Zambia, we know this community-based group since formation year. The Coalition is a truly outstanding local entity who has accumulated a long list of achievements and extra-curricular activities.

The Coalition was founded in 2005 with a mission to provide and/ facilitate access to social support for vulnerable groups of people in Mushota Chiefdom. The Coalition, basically monitors, assesses, and addresses the wellbeing of vulnerable groups of people within six key domains: Education; Health care and water; Food and Nutrition; Social Protection; Psychosocial Support and Shelter and Care. To date, the Coalition has assisted over 1,259 people in their skills development program in mainly in the area of food and nutrition security and; communities in their bid to access to safe and adequate water supply for irrigation and domestic use. In addition, the Coalition is extremely organized, reliable, and transparent in its collaboration with community and, has trained and committed staff. The Coalition can work independently and is able to follow through to ensure that the activities gets done.

We truly believe the Coalition and Chitimbwa water supply project would a tremendous contribution to your project support profile in Luapula Province, Zambia and has our highest recommendation.

Sincerely,

Mwape Kingsley:  : **Ilombe Ward Development Committee Secretary**

Chibangu Evans:  : **Ilombe Ward Development Committee Chairperson**

Besa Boniface :  : **Ilombe Ward Councilor**
