

SALUMO COMMUNITY BASED ORGANIZATION

SALUMO CBO has implemented several projects in the past some of which we were training of young people carpentry and Joinery through DEMAT program. Under this program over 15 youths benefited in joinery. The other project involved upgrading of young people, who have a background in carpentry and joinery, with advanced skills in the field. This project was implemented under AFRICARE program. We were able to train over 30 young people through our program.

Since the time of establishment SALUMO has empowered over 70 young people in various carpentry and joinery skills. Out of the total trained young people over 70% have secured employment and started running small scale businesses

SALUMO has invested over K1,700,000 in training youth. The income has been through membership contribution and support from various stakeholders which has helped the organization to implement and carry its various activities and past projects.
