TO WHOM IT MAY CONCERN

Dear Sir/Madam,

RE: REFERENCE LETTER

I write to recommend that Active Aid in Africa (AAA) is a non-governmental organization (NGO) its role is to support the improvement of livelihood and capacities of poor marginalized people to come up from poverty by economic development through multiple community development activities such as Water and Sanitation (WASH), afforestation, clean sustainable source of energy and also create environmental impacts in the community of Traditional Authority (T/A) Tengani in Nsanje district, Malawi.

Active Aid in Africa (AAA) over the idea of coming up with various project activities in the designing of the project aiming to curb climate change. There is high demand of such services in the communities hence the project ideas has come in the right time. For instance , AAA 's proposed project still more, many areas are left out in the communities do to high demand, this is due to the shortage of funds hence more areas are not protected and conserved.

I am more confident in my prediction that he would do a very good job for the underprivileged community and the assistance you are going to provide would be valuable asset to the targeted community.

As such ,I recommend for the project to come and join forces of doing intended purposes in the communities.

Yours faithfully,

Shora Chauluka

Project Manager.
