Dear Sir,

SUBJECT: Recommendation of the Family Outreach Ministry Cameroon (FOMCAM)

With reference to the above subject matter, I wish to recommend the services of Family Outreach Ministry Cameroon (FOMCAM) for any possible support.

The Director of the institution has been involved in humanitarian services since 2009 when I got touched based with him during a malaria campaign project in the North West Region of Cameroon. He has support widows, orphans, teenage mothers, and the elderly women through literacy programmes, education and activities that help them generate income to help themselves and better their lives.

I think with what he has accomplished so far, if he is given a grant or technical assistance, his impact to the hurting target groups will be tremendous.

This letter is written as a testimonial for my eye witness and account and therefore recommend his organization for any support from your institution.

Thank you.

Yours Sincerely

Nganjo Olive
Chief Executive Officer
