TO WHOM IT MAY CONCERN

UNDP is an international, non-governmental, humanitarian organization dedicated to the reduction of suffering and working towards the ultimate elimination of extreme poverty in the world's poorest countries. UNDP has been working in Pakistan under a Memorandum of Understanding with the Government of Pakistan's Economics Division. UNDP Programme implements projects across the country through I/NGO partners, to bring sustainable development and humanitarian interventions to those communities in the greatest need of assistance.

I am pleased to certify that Community Oriented Rural Empowerment (CORE) has successfully implements 2 projects, funded by UNDP through the people of Japan funding. As part of its complex emergency response, CORE has completed 2 projects of Community Based Disaster Risk Management in the District of Buner and Swat, KP.

Our team members found CORE's project control systems were in place and its overall performance was satisfactory. CORE has an experience and professional team and they performed well during all projects funded by UNDP. Please note that, under the Seed funding mechanism, there is substantial involvement of the Seed Fund team during project implementation. During project implementation, we provide our partners with extensive support, and a sound monitoring of the project activities is conducted throughout the implementation phase.

If you have any query in this regard, please feel free to contact me mehvish.javed@undp.org.

Best Wishes,

Maryam Khan Project Director, Seed Funding
UNDP, Pakistan
