Subject: Reference for Gumbo Majubwa

My name is paul kronenberg and I am the Co-founder/Director of kanthari. kanthari is based in Trivandrum Kerala, offers a Seven and half months leadership program for individuals who have overcome adversity and who are keen to drive ethical social change. Gumbo Majubwa from Tanzania started the organisation ambakofi. One project that Gumbo want to initiate is a "**Agroforestry Initiative, an Education security tool for the farmer's Children from the poor mother's families in Mkange Village Tanzania**". kanthari believe the proposed project could bring a two way benefit to the project beneficiaries.

Gumbo was selected to take part in the 2017 kanthari course.

Gumbo's project idea aiming to restore forest that was degraded by deforestation, convinced intake panel. We were and are sure that his project can cause a significant positive impact. At kanthari, we provide practical skills that enable participants to successful start and run projects. Topics include but are not limited to; financial management, budgeting, team leadership, public speaking, fundraising etc.

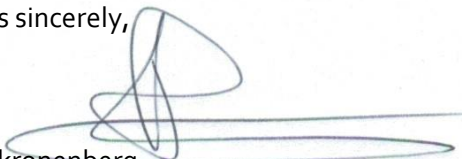

During the seven and a half Months course I came to know Gumbo as an open-minded, creative and energetic person with a passion for environmental conservation and livelihood projects. I am supporting him as a catalyst and mentor offering guidance and support as he builds his social venture ambakofi.

Gumbo is a person that knows what needs to be done to improve the current situation in Tanzania and therefore I fully recommend your support towards him.

Please do let me know if you have any questions and/or if you need any other information.

You can reach me at founders@kanthari.org

Yours sincerely,

paul kronenberg
